

FAIR PROCESSING NOTICE SCHOOL CENSUS 2009 - LAYER TWO FULL TEXT

This notice gives additional information to the layer one notice and provides further information about the processing of pupils' personal data by the other organisations mentioned in that notice.

Lavenham CP School processes personal data about its pupils and is a "data controller" in respect of this for the purposes of the Data Protection Act 1998. It processes this data to:

- support its pupils' teaching and learning;
- monitor and report on their progress;
- provide appropriate pastoral care, and
- assess how well the school as a whole is doing

This information includes contact details, national curriculum assessment results, attendance information, characteristics such as ethnic group, special educational needs and any relevant medical information.

From time to time the school is required to pass on some of this data to local authorities, the Department for Children, Schools and Families (DCSF), (which also has responsibility for ContactPoint and to agencies that are prescribed by law, such as the Qualifications and Curriculum Authority (QCA), Ofsted, the Learning and Skills Council (LSC), the Department of Health (DH) and Primary Care Trusts (PCT). All these are data controllers for the information they receive. The data must only be used for specific purposes allowed by law.

The Children Act 2004 Information Database (England) Regulations 2007 requires maintained schools to supply basic contact information to ContactPoint.

The **Local Authority (LA)** uses information about children for whom it provides services to carry out specific functions for which it is responsible, such as the assessment of any special educational needs the child may have. It also uses the information to derive statistics to inform decisions on (for example) the funding of schools, and to assess the performance of schools and set targets for them. The statistics are used in such a way that individual children cannot be identified from them. The LA is also required to maintain the accuracy of the information held on ContactPoint about children and young people in their area.

The LA is required to collect personal information on all children who receive a service or are 'Looked After' by the Local authority. This personal information, which includes the child's; age, ethnicity, legal status, type of service or placement as well as the child's Unique Pupil Number (UPN), is sent to the Department of Children, Schools and Families (DCSF) each year, as part of the local Authority's statutory returns which includes the Children in Need census and the Looked After Children SSDA 903 return. The collection of the UPN enables the DCSF to extract educational information from the National Pupil database, held by the DCSF, and to add it to the returns submitted by the Local Authority. Although the National Pupil database also contains the child's name, DCSF do not use the child's name in

processing or analysing the data. Neither does the DCSF use the identifiable information to take any action in relation to individual children nor are individual children identified in any reports.

The **Qualifications and Curriculum Authority (QCA)** uses information about pupils to administer the national curriculum assessments portfolio throughout Key Stages 1 to 3. This includes both assessments required by statute and those that are optional. The results of these are passed on to DCSF to compile statistics on trends and patterns in levels of achievement. The QCA uses the information to evaluate the effectiveness of the national curriculum and the associated assessment arrangements, and to ensure that these are continually improved.

Ofsted uses information about the progress and performance of pupils to help inspectors evaluate the work of schools, to assist schools in their self-evaluation, and as part of Ofsted's assessment of the effectiveness of education initiatives and policy. Ofsted also uses information about the views of children and young people, to inform children's services inspections in local authority areas. Inspection reports do not identify individual pupils.

The **Learning and Skills Council (LSC)** uses information about pupils for statistical purposes, to evaluate and develop education policy and monitor the performance of the education service as a whole. The statistics (including those based on information provided by the QCA) are used in such a way that individual pupils cannot be identified from them. On occasion information may be shared with other Government departments or agencies strictly for statistical or research purposes only. The LSC or its partners may wish to contact learners from time to time about courses, or learning opportunities relevant to them.

Primary Care Trusts (PCT) use information about pupils for research and statistical purposes, to monitor the performance of local health services and to evaluate and develop them. The statistics are used in such a way that individual pupils cannot be identified from them. Information on the height and weight of individual pupils may however be provided to the child and its parents and this will require the PCTs to maintain details of pupils' names for this purpose for a period designated by the Department of Health following the weighing and measuring process. PCTs may also provide individual schools and LAs with aggregate information on pupils' height and weight.

The **Department of Health (DH)** uses aggregate information (at school year group level) about pupils' height and weight for research and statistical purposes, to inform, influence and improve health policy and to monitor the performance of the health service as a whole. The DH will base performance management discussions with Strategic Health Authorities on aggregate information about pupils attending schools in the PCT areas to help focus local resources and deliver the Public Service Agreement target to halt the year on year rise in obesity among children under 11 by 2010, in the context of a broader strategy to tackle obesity in the population as a whole. The Department of Health will also provide aggregate PCT level data to the Healthcare Commission for performance assessment of the health service.

The **Department for Children, Schools and Families (DCSF)** uses information about pupils for research and statistical purposes, to inform, influence and improve education policy and to monitor the performance of the education service as a whole. The DCSF will feed back to LAs and schools information about their pupils for a variety of purposes that will include data checking exercises, use in self-evaluation analyses and where information is missing because it was not passed on by a former school.

DCSF, with the participation of LAs, operates the database known as ContactPoint. ContactPoint is an online directory available to authorised staff who need it to do their jobs. It is designed to allow practitioners to find out who else is working with the child or young person, making it easier to deliver more coordinated support. Schools are under a statutory duty to pass onto ContactPoint certain information. This consists of basic information about the child or young person, the contact details of the school and the contact address and telephone numbers for the parents or carers, with parental responsibility, of the child or young person.

NB: All natural parents, whether they are married or not; any person who, although not a natural parent, has parental responsibility (as defined in the Children Act 1989) for a child or young person; and any person who, although not a natural parent, has care of a child or young person. Having care of a child or young person means that a person with whom the child lives and who looks after the child, irrespective of what their relationship is with the child, is considered to be a parent in education law.

The DCSF will also provide Ofsted with pupil data for use in school inspection. Where relevant, pupil information may also be shared with post 16 learning institutions to minimise the administrative burden on application for a course and to aid the preparation of learning plans.

Pupil information may be matched with other data sources that the Department holds in order to model and monitor pupils' educational progression; and to provide comprehensive information back to LAs and learning institutions to support their day to day business. The DCSF may also use contact details from these sources to obtain samples for statistical surveys: these surveys may be carried out by research agencies working under contract to the Department and participation in such surveys is usually voluntary. The Department may also match data from these sources to data obtained from statistical surveys.

Pupil data may also be shared with other Government Departments and Agencies (including the Office for National Statistics) for statistical or research purposes only. In all these cases the matching will require that individualised data is used in the processing operation, but that data will not be processed in such a way that it supports measures or decisions relating to particular individuals or identifies individuals in any results. This data sharing will be approved and controlled by the Department's Chief Statistician.

The DCSF may also disclose individual pupil information to independent researchers into the educational achievements of pupils who have a legitimate need for it for their research, but each case will be determined on its merits and subject to the approval of the Department's Chief Statistician.

Pupils, as data subjects, have certain rights under the Data Protection Act, including a general right of access to personal data held on them, with parents exercising this right on their behalf if they are too young to do so themselves. If you wish to access the personal data held about your child, then please contact the relevant organisation in writing:

- **the school at** Barn Street,
Lavenham,
Sudbury,
Suffolk
CO10 9RB

- the County Council's Data Protection Officer at Endeavour House, Russell Road, Ipswich, IP1 2BX (telephone the Freedom of Information Helpline on 01473 264618 or e-mail FOIHelpdesk@libher.suffolkcc.gov.uk);

- the QCA's Data Protection Officer at QCA, 83 Piccadilly, London, W1J 8QA (www.qca.org.uk);

- Ofsted's Data Protection Officer at Alexandra House, 33 Kingsway, London WC2B 6SE (www.ofsted.gov.uk);

- LSC's Data Protection Officer at Cheylesmore House, Quinton Road, Coventry, Warwickshire CV1 2WT (www.lsc.gov.uk);

- the Suffolk PCT's Information Governance Manager, Suffolk Primary Care Trust, Bartlet Hospital Annexe, Felixstowe, Suffolk IP11 7LT (foi@suffolkpct.nhs.uk).

- the Department of Health's Data Protection Officer at Skipton House, 80 London Road, London SE1 6LH (www.dh.gov.uk);

- the DCSF's Data Protection Officer at Sanctuary Buildings, Great Smith Street, London SW1Y 3BT;

In order to fulfil their responsibilities under the Act the organisation may, before responding to this request, seek proof of the requestor's identity and any further information required to locate the personal data requested.

Separately from the Data Protection Act, regulations provide a pupil's parent (regardless of the age of the pupil) with the right to view, or to have a copy of, their child's educational record at the school. If you wish to exercise this right you should write to the school.
